Dear Logic Customer,

Congratulations on your decision to sign up for Logic service! Logic requires written permission before service installation. To ensure you have a smooth installation experience, if you do not own the residence in which you intend to install your Logic services, we require that you obtain landlord approval prior to any installation.

Installation of Logic Fiber and/or TV service may involve modifications to the residence. Often times this requires Logic to trench and drill holes in order to mount equipment and run cable. Any such type of modification may be forbidden pursuant to the terms of your lease/rental agreement or may require pre-approval by the landlord. Please be advised that landlord approval is often necessary in multi-tenant apartment buildings.

You should carefully review your lease agreement to determine if you have the right to make such modifications. If landlord approval is required, please request that the landlord, or its authorized representative, sign this form to acknowledge authorization for the installation and provide this signed form along with your application form. In the alternative, if the landlord verbally gives you permission (or if landlord approval is not required pursuant to your lease or rental agreement), please indicate and sign as well.

By providing this signed form to Logic either directly or through its employees or authorized agents, you are granting Logic permission to install your new Fiber and/or TV service and are releasing Logic from any liability related to damages that your landlord may claim as a result of an alleged violation of your lease/rental agreement as it relates to the installation of your new Logic services.

Should your landlord only approve the Logic Fiber and/or TV installation subject to special requirements that make the actual install more expensive (or exceeds what Logic offers within its standard professional installation), you will be asked to pay a corresponding charge for the additional services.

CUSTOMER represents and warrants that he/she owns the aforementioned property at which the installation or service work is being performed and will allow Logic and its subcontractors to make whatever alterations Logic considers appropriate for the work to be performed, which may include, without limitation, trenching and drilling holes for cable runs and a wall mounted apparatus for use with Fiber and/or TV installation(s). CUSTOMER agrees to indemnify and hold Logic and its affiliates, and its and their subcontractors harmless from and against any damage, loss or any nature whatsoever caused or claimed to be caused by the installation of equipment, service work performed hereunder, or as a result of CUSTOMER's failure to obtain proper consent of the owner of the premises.

As the owner of the above-mentioned property, I represent that I have the authority to initial and sign this Letter of Permission and hereby do authorize installation of Logic services by Logic or its subcontractor.

LANDLORD/PROPERTY MANAGER represents and warrants that he/she owns/manages the aforementioned property at which the installation or service work is being performed and will, and has the authority to, allow Logic and its subcontractors to make whatever alterations Logic considers appropriate for the work to be performed, which may include, without limitation, trenching and drilling holes for cable runs and a wall mounted apparatus for use with Fiber and/or TV installation(s). LANDLORD/PROPERTY MANAGER agrees to indemnify and hold Logic and its affiliates, and its and their subcontractors harmless from and against any damage, loss or any nature whatsoever caused or claimed to be caused by the installation of equipment, service work performed hereunder, or as a result of LANDLORD/PROPERTY MANAGER's failure to obtain proper consent of the owner of the premises.

As the landlord/property manager of the above-mentioned property, I/we represent that I/we have the authority to initial and sign this Letter of Permission and hereby do authorize installation of Logic services by Logic or its subcontractor.
